

SHERLIN S

B.E. Computer Science & Engineering | Reg. No. 24104082

24104082@nec.edu.in | sherlinda414@gmail.com | [linkedin.com/in/sherlins](https://www.linkedin.com/in/sherlins) | github.com/Sherlin414

PROFILE

Third-year Computer Science & Engineering student with a domain focus on Blockchain, and hands-on experience across full-stack web development (HTML, CSS, JavaScript), Python, and GIS/remote sensing. Proven track record of building and shipping independent projects, completing multiple internships, and earning NPTEL certifications with elite standing.

EDUCATION

B.E. Computer Science & Engineering

2024 – 2028 (Expected)

Undergraduate Degree

Higher Secondary Education

Completed 2023

SKILLS

Languages & Programming: C, C++, Java, JavaScript, Python

Web Development: HTML, CSS, JavaScript

Geospatial & Data Tools: Remote Sensing, QGIS, Google Earth Engine, Google Colab

INTERNSHIPS

Web Development Intern — Prodigy InfoTech

Remote / Online

- Worked on real-world web development tasks in a remote internship, building and refining front-end features while strengthening practical HTML, CSS, and JavaScript skills.

Software Development Intern — Hinelix Technologies, Bangalore

Remote / Online

- Contributed to ongoing software projects remotely, gaining hands-on exposure to professional development workflows, collaborative coding practices, and problem-solving on live tasks.

Remote Sensing & GIS Intern — Thazal Geospatial Analytics

On-site / Offline

- Worked on-site with geospatial datasets, applying remote sensing techniques and GIS tools to analyse and map real terrain and infrastructure data.

PROJECTS

AI Resume Analyzer

Python

- Built an AI-powered system that evaluates resumes, identifies strengths and weaknesses, checks ATS compatibility, and provides personalized improvement feedback.

AI-Powered College Attendance Management System

HTML, CSS, JavaScript, Python, Google Colab

- Built an intelligent attendance monitoring system that automatically alerts students below 70% attendance and sends daily motivational messages to students with perfect attendance.

Raw Mill Procurement and Management System

HTML, CSS, JavaScript, Java

- Developed a system to manage raw material purchasing, supplier details, inventory tracking, and procurement processes for efficient production and cost control.

Road Information System & Highway Asset Mapping — Tirunelveli District

Remote Sensing, QGIS, Google Earth Engine, Python

- Built a GIS-based system mapping roads and highway assets, monitoring road conditions and infrastructure issues to support maintenance and transportation planning.

Space Habitat Layout Creator

3D Visualization Tool — NASA Space Apps Challenge

- Designed a tool to plan and optimize space habitat layouts across living, research, storage, and life-support modules for safety and sustainability.

Weather App

HTML, CSS, JavaScript

- Built a web app that fetches and displays live weather data for any location using a public weather API.

Fortune Whisperer Magic

HTML, CSS, JavaScript

- Built an interactive web experience that delivers playful, mystic-style fortunes and predictions to users.

Mafia-Detective

HTML, CSS, JavaScript

- Built an interactive mystery game where players act as a detective investigating mafia activities — gathering clues, questioning suspects, and solving puzzles through strategic decision-making.

Responsive Landing Page

HTML, CSS, JavaScript

- Designed an interactive, responsive landing page for ordering and viewing ice creams.

Gravity Maze Goal

HTML, CSS, JavaScript

- Built an interactive web-based puzzle game where players control gravity to navigate a maze, overcome obstacles, and reach the goal — focused on logic, timing, and problem-solving.

Neon Path Zip

HTML, CSS, JavaScript

- Built an interactive web-based puzzle game where players navigate neon paths, connect routes, and complete challenges using logical thinking and strategy.

Tic Tac Toe

HTML, CSS, JavaScript

- Built a classic two-player Tic Tac Toe game for the browser.

Stopwatch

HTML, CSS, JavaScript

- Built a simple, responsive stopwatch/timer web app for tracking elapsed time.

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Internet of Things — NPTEL, IIT Kharagpur (Elite+Silver, Top 5% Topper, 85% score, Jul–Oct 2025)
- The Joy of Computing using Python — NPTEL, IIT Madras (Elite+Silver, 75% score, Jan–Apr 2025)
- Technical English for Engineers — NPTEL, IIT Madras (Elite+Silver, 82% score, Aug–Oct 2024)
- IIT Bombay FOSSEE-AAI Geospatial Mapathon 2025 — Notable Participant, Edition V (Mar–Jul 2025)
- VishwaNova — National Level Weboreel AI Hackathon, MIT World Peace University, Pune (via Unstop) — Participation
- Cluster 2K25 — Technical & Non-Technical Events, K.L.N. College of Engineering — 3rd Place (Mar 19, 2025)
